

MEGA MAN - IRON

Chelated Minors Package With Fe, Mn, & Mg

GENERAL INFORMATION:

MEGA MAN - IRON is a supplemental minors package developed specifically to enhance turf growth and color response. **MEGA MAN-IRON** contains iron, manganese, and magnesium. **Iron** is involved in the production of chlorophyll and also is a component of many enzymes associated with energy transfer, nitrogen reduction and fixation, and lignin formation. **Manganese** is necessary in photosynthesis, nitrogen metabolism and to form other compounds required for plant metabolism. Magnesium is the coordinating ion in the chlorophyll molecule. **MEGA MAN-IRON** is chelated with citric to ensure nutrient availability through foliar or soil applications.

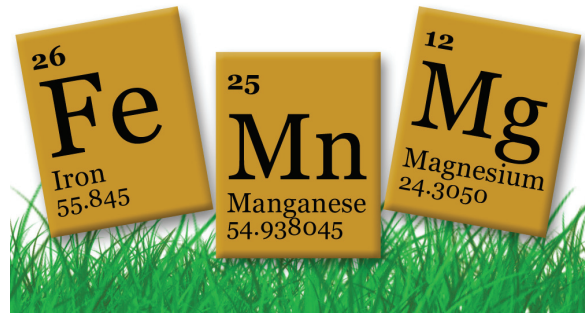

USE RATES:

Apply 3 - 6 ounces per 1,000 square feet every 10 to 14 days. May apply up to 12 ounces per 1,000 square feet (4 gallons per acre) for severe deficiencies.

GUARANTEED ANALYSIS:

Magnesium (Mg): 1.0%
Iron (Fe): 3.0%
Manganese (Mn): 3.0%

Derived from: ferrous sulfate, magnesium sulfate, manganese sulfate.

MEGA MAN-IRON contains the right minors
for enhanced green-up
