

MEGA N

30-0-0 Urea Triazone

GENERAL INFORMATION:

MEGA MAN N is a source of supplemental nitrogen derived from urea-triazone. Designed for both foliar and root absorption, urea triazone is a high solubility, low burn potential liquid nitrogen formulated with 60% of the total nitrogen in the slowly available form. This liquid slow release formulation reduces loss from leaching and volatilization and creates a more consistent and lasting green-up.

RATE CHART:

Ounces per 1,000	Lbs of N per 1,000
1.5	0.037
3	0.073
4.5	0.11
6	0.146
8	0.195
12	0.293

GUARANTEED ANALYSIS:

Total Nitrogen (N): 30.0%
12.0% Urea nitrogen
18.0% Other water soluble nitrogen

Derived from: urea triazone

MEGA MAN N delivers rapid green up with lasting results.
